Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 October 2007.

DETAILED ACTION

Applicant's response to the office action of 05/01/07 is acknowledged on 10/23/07.

Claim Objections

The status identifiers for claims 3-12 have the expression "(Previously presented)" at the beginning of each claims. The status identifiers of claims 3-12 should be changed to - - (Withdrawn) - - since Applicant has elected claims 1 and 2 without traverse in his response of 04/25/07.

Claim Rejections - 35 USC § 102/103

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Pettigrew et al. (US Patent Application Publication No. 2001/0036870).

Pettigrew discloses a golf ball comprising two equatorial o-rings (112 as shown on Figure 1A). Portion of the o-rings (112) and marking (114) could be considered as polar markings. The intended use of the claim is disclosed in paragraph 30 of the Pettigrew reference.

OR

In an event that one argues that portion of the o-ring 112 and marking 114 could not be considered as polar markings, claim 1 is also rejected under 35 U.S.C. 103(a) as being unpatentable over Pettigrew in view of Inoue (US Patent No. 5,013,046). It would have been obvious to one of ordinary skill in the art to provide the Pettigrew device with multiple polar markings in order to identify multiple hit points. When these two references are combined the claimed intended use of the markings would obviously be met.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pettigrew in view of Inoue

Even though the polar markings do not have an o-ring shape, it would have been an obvious matter of design choice to make the different portions of the markings of whatever form or shape was desired or expedient. A change in form or shape is generally recognized as being within the level of ordinary skill in the art, absent any showing of unexpected results.

Response to Arguments

Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
